

Grants for students of Addis Ababa University interested in study/research exchanges to the Aalto University, Finland

(2 position, Aug.-Dec. 2025)

International study exchanges offer the unique opportunities for long-term visits (4 months) between participants holding the status of BSc/MSc/PhD student at Addis Ababa University (Ethiopia) and Aalto University (Finland). The participants can gain technical qualifications and skills in an international environment, while improving their language skills. This funding opportunity can also be used to initiate research collaboration, obtain thesis advising and/or supervision, and receive educational training on topics related to design of new products and services enabled by digital technologies, with emphasis (but not limited to) the use of 5G. This call takes place under the scope of the “5G-Facilitated Business and Entrepreneurship in Emerging markets (5G-FrisBEE), funded by ERASMUS+ KA171 program.

What do we offer to the selected candidates?

- Monthly grant (4 months, 900 €/month) and financial support (up to 1188 €) to cover the airplane ticket and other trip arrangements costs. Grant will be paid at the beginning of the study exchange period, once being in Finland.
- Guidance in finding accommodation in mobility destination and support to obtain the documentation needed to apply for a study-exchange visa. However, all these travel-related costs must be covered with the exchange grant that the student will receive.

Requirements to apply for the exchange grant:

- Applicants must be enrolled as student at Addis Ababa University (AAU) and maintain their enrollment status for the full duration of their exchange period. It is recommended that applicants attend the “5G for Business and Entrepreneurs (5G4BE)” course at AAU campus, organized as part of 5G-FrisBEE project, before the application.
- For study exchanges (min. 4 months), applicants must prove a min. B1 level of English (Common European Framework of Reference for Languages). Paper certificate or oral interview with evaluation committee can be used for this.
- If selected, exchange students are expected to maintain the equivalent of a full course load at the host Institution during the whole 4-month visit.

How to apply?

- **Transfer of credits.** Consult with the learning services of AAU their internal procedures for recognition of credits during the exchange studies or BSc/MSc Thesis work.
- **Study and/or research plan.** For study exchanges, prepare your study plan using as reference the courses available in the host institution in the Fall semester (Aug.-Dec. 2025). Further information: <https://www.aalto.fi/en/international-students/studies-in-the-school-of-electrical-engineering-for-exchange-students> and <https://www.aalto.fi/en/international-students/studies-at-the-school-of-science-for-exchange-students>
- **Motivation letter.** Prepare a motivation letter explaining your background and specifying the outcomes that you aim to achieve after your staying period in Finland. Elaborate your answers for half a page, max. 1 page (about 2000 characters with spaces)
- **Personal information and attachments.** Submit the study plan for the exchange, motivation letter, transcript of records, and “optional” proof of proficiency in English using the link below before the deadline (**Fri. 28th Feb. 2025**)
